Company Profile

Quadque Technology Pty. Limited is the leading IT solution provider company in Australia, and now it is conducting the business in Bangladesh too. Quadque was established in 2020 with a longstanding reputation as one of Australia's leading IT service Companies. The head office of the Quadque is situated in Sydney, Australia. Now it started business in multiple branches in Australia and Bangladesh for more active operations. The main activity of the Quadque is to provide Web Services, Digital Marketing Solutions, and other IT solutions as the best digital partner. We worked with the world's leading enterprises, SMEs, and technology challenges by those time. We help many businesses to elevate the valuations through Web Services, Custom Software Development, Search Engine Optimization (SEO), Android & iOS Apps Development, Identity Design, Digital Marketing Services, Cloud Services, and AI & IoT implications. Moreover, Quadque is involved in designing, developing, implementing, and maintaining business application software and digital services for domestic and overseas areas. Quadque provides a core online management solution for various industries for local and global markets. Quadque also provides digital services and solutions for various companies, especially to the educational organization and e-commerce businesses. Furthermore, Quadque provides a complete life cycle of software development services, including system analysis, use case development, system architecture & design, system integration, web API development UI/UX design, database & administration design, functional and system testing, quality assurance, and project management.

“Now it started business in multiple branches in Australia and Bangladesh for more active operations."

Over the time of business operation, Quadque has also moved into advanced technologies like Learning Management System (LMS), Internet of Things (IoT), Artificial Intelligence (AI), etc. Today Quadque is considered as one of the renowned ICT Solution Providers of Bangladesh and has become an IT partner of choice for managing people, processes, and the environment.
